PROJECT

Quiz Application (Backend + Database Integration)

 [Project Link](#)

- Developed a dynamic quiz application with database connectivity using PostgreSQL.
 - Implemented functionality to fetch **random questions** from the database.
 - Designed system allowing **customizable number of questions per test**.
 - Built feature to **calculate and display scores** after test submission.
 - Integrated backend technologies including **JDBC, JPA, and Spring Boot**.
 - Focused on secure API development using **Spring Security and JWT-based authentication**.
-

STRENGTHS

- Strong problem-solving and analytical thinking
 - Consistent learner with focus on backend development
 - Ability to quickly adapt to new technologies
-

ADDITIONAL INFORMATION

- Actively solving DSA problems (LeetCode)
 - Exploring API development and testing (JUnit)
